**CERTIFICATE VALID FROM:**

**Jan 30, 2020 To Jan 29, 2021**

**AUDIT TYPE:**

Announced Audit

**AUDIT SCOPE:**

Vegetable product packing plant, which works throughout the season. At the time of the visit, there were about 78 employees and they were working with green beans, the process is verified from the receipt of raw material, pre-washing (0.5-1 ppm Free chlorine), disinfection of the PCC 1 product (50-75 ppm free chlorine), rinse (0.5-1 ppm free chlorine), centrifuge drying, cold storage, transfer to packing tables for product selection, bagging, weighing, sealing, packing, cold storage and distribution in containers. The water used in the plant operation for product washing, facility cleaning and personnel operation comes from a well, it has a filtering system and it is drinkable. During the visit, interviews are carried out with the available personnel, packing facilities, cold rooms, warehouses, water source, sanitary facilities and dining area are verified. The perimeter of the plant is kept closed and there is internal surveillance, signage is available at the entrance of the plant where hygiene rules are established for staff and visitors. Pest control is carried out by an external company, it includes internal capture traps and external traps with chemical bait, revisions are carried out every 15 days.

**PRODUCTS:**
