Revision 1

**CERTIFICATE VALID FROM:**

**Jan 22, 2020 To Jan 21, 2021**

**AUDIT TYPE:**

Announced Audit

**AUDIT SCOPE:**

The Salamo farm is visited, which has an approximate area of 32 ha, during the inspection there is a sowing area of 12.6 ha of green beans, pea has an approximate cultivation area of 0.23 ha and in the case of Baby Corn it counts with an approximate area of cultivation of 0.52 ha. For field work there are about 10 employees at the time of the visit, in high season about 40 employees remain. The water used in the farm comes from a well, it is used to supply the needs of the crop by means of the irrigation method, it is also used for the operation of the personnel in hand washing and for applications of agrochemicals. The fertilizer applications are carried out manually and through the irrigation system. There is signage at the entrance of the farm with the established hygiene procedures, the farm has a perimeter fence and internal security is maintained. During the inspection, interviews are carried out with the personnel available in cultivation work, cultivation areas, wells and chemical warehouses are verified.

**PRODUCTS:**

**PRODUCT(S) OBSERVED DURING AUDIT**

Baby Corn, Green Beans/French Beans, Peas

**Addendum(s) included in the audit:**
